

Rainy River District Transportation Services Consortium

The Rainy River District Transportation Services Consortium would like to welcome back students, parents & staff for the 2016/2017 school year. As we begin a new school year, we remind all students and parents to be aware of safety procedures around school buses.

Need to change your student(s) transportation?

Please be aware that the first few weeks of school startup are extremely busy and the form states we have 3 business days upon receiving the form to complete the request. All changes must be in writing and forms filled out at your student(s) school they are registered at.

Buses are a 100% "NO FOOD ZONE"

Buses transport students with food allergy restrictions and it is critical that everyone is compliant to make sure that buses are kept clean & food free to minimize anyone at risk.

Food allergies can be life threatening. The risk of accidental exposure to foods can be reduced if we all work together to minimize risk and take measures to provide a safe environment for food-allergic students.

Walking?

Students and motorists should be aware of one another on the road. Students should avoid distractions while walking, biking or rollerblading to school (i.e. iPhone). **100% of your attention should be on the road while driving, its not worth the risk to be distracted**
